Enhance awareness to check illicit trade: Ficci-KPMG report

PRESS TRUST OF INDIA
New Delhi, 12 October

The government needs to take steps such as raising awareness and moderating taxes on goods to check illicit trade in the country, said a Ficci-KPMG study.

It also said funds generated through such trade practices are used for terror financing and organised crime.

"Many prominent terrorist organisations such as Hezbollah, Lashkar-e-Taiba, Al Qaida, Irish Republican Army, etc rely on illicit trade for financing up to 20 per cent of terror operations," the report said.

Ficci Secretary General Sanjaya Baru said illegal trade in smuggled, counterfeit and pirated goods dampens the economy. "It destabilises the legal industry, restrains innovation and investments, reduces government revenues and hampers the health and safety of consumers," he said.

According to a report published by OECD and European Union Intellectual Property Office in April 2016, it is estimated that the total economic and social costs globally due to counterfeit and piracy stood at \$737-898 billion in 2013 and is expected to rise to \$1.54-1.87 trillion by 2022.

Apart from this, the total job losses globally due to counterfeit and piracy stood at 2-2.6 million in 2013 and is expected to rise to 4.2-5.4 million in 2022.

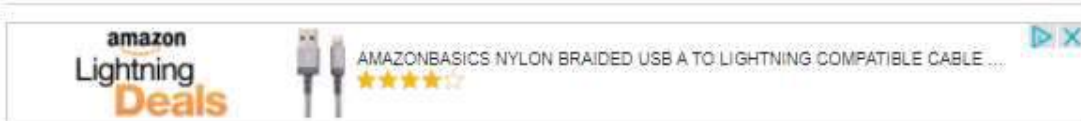

The most commonly counterfeited and smuggled goods are tobacco, cigarettes, electronic items, gold, machinery and parts, alcoholic beverages, auto components, fast-moving consumer goods, and mobile phones.

अवैध कारोबार

54 लाख नौकरियां पड़ेंगी खतरे में

नई दिल्ली ■ वातां नकली और तस्करी वाली वस्तुओं का अवैध कारोबार 2022 तक दुनिया में 54 लाख नौकरियां खत्म कर देगा। उद्योग संगठन फिक्की और सलाहकार सेवा कंपनी केपीएमजी की ओर से 'अवैध कारोबार: आतंकी फंडिंग और संगठित अपराध को प्रोत्साहन' शीर्षक से प्रकाशित रिपोर्ट में अवैध कारोबार, संगठित अपराध और आतंकी फंडिंग के बीच साठ-गाँठ को टूटागर करने की कोशिश की गयी है। रिपोर्ट में कहा गया है कि आतंकी फंडिंग एक वैश्विक

समस्या का रूप ले चुकी है। हिजबूल मुजाहिदीन, लश्कर-ए-तेयबा और अलकायदा जैसे बड़े आतंकी संगठन अपनी गतिविधियों के लिए 20 फीसदी धन इस अवैध कारोबार के जरिये ही जुटाते रहे हैं। इससे दुनिया के करीब-करीब सभी देश प्रभावित हो रहे हैं। इसका असर उद्योगों, सरकारों तथा जनता पर समान रूप से पड़ रहा है। रिपोर्ट के अनुसार 2013 में नकली और तस्करी की वस्तुओं के अवैध कारोबार के कारण सामाजिक और आर्थिक स्तर पर करीब 898 अरब अमरीकी डालर

का नुकसान हुआ जिसके 2022 तक 108 फीसदी बढ़कर 1800 अरब पर पहुंच जाने की आशंका है जिससे 54 लाख नौकरियां खत्म हो सकती हैं। केपीएमजी के अनुसार 2012-16 के बीच औसतन 3429.69 करोड़ रूपए के इलेक्ट्रॉनिक और 3119.56 करोड़ रूपए के सोने के सामनों और 913 करोड़ रूपए के मशीनी उपकरणों की तस्करी हुयी। वर्ष 2010 से 2015 के बीच सिगरेट और तंबाकू उत्पादों की तस्करी 15 फीसदी से बढ़कर 21 फीसदी हो गयी। फिक्की के महासचिव

डॉ. संजय बारू के अनुसार, नकली और तस्करी की वस्तुओं का अवैध कारोबार अर्थव्यवस्था को कई तरह से नुकसान पहुंचाता है। यह वैध कारोबार को अस्थिर बनाता है, निवेश और नवाचार को हतोत्साहित करता है, सरकारी राजस्व घटाता है तथा उपभोक्ताओं के स्वास्थ्य और सुरक्षा को खतरे में डालता है। इसके अलावा यह अंतरराष्ट्रीय अपराधों, भ्रष्टाचार और आतंकवाद का भी कारण बन पूरी दुनिया में असुरक्षा और अस्थिरता का माहौल पैदा करता है।

4.2 to 5.4mn jobs to be lost by 2022 due to counterfeiting and piracy worldwide

Agencies, New Delhi

The total employment losses globally due to counterfeit and piracy stood at 2 to 2.6 million jobs in 2013 and is expected to rise to 4.2 to 5.4 million jobs in 2022, suggesting an approximate increase of 110 per cent.

According to a FICCI-KPMG report 'Trade in Counterfeit and Pirated Goods: Mapping the Economic Impact' published by Organisation for Economic Co-operation and Development (OECD) and European Union Intellectual Property Office (EUIPO) in April 2016, it is estimated that the total economic and social costs globally due to counterfeiting and piracy worldwide stood at 737 to 898 billion dollar in 2013 and is expected to rise to 1.54 to 1.87 trillion dollar by 2022, suggesting an approximate increase of 108 per cent.

The report was launched today at the FICCI conference, MASCRAGE 2017

(Movement Against Smuggling and Counterfeit Trade). The report helps improve our understanding of the nexus between terror financing, organised crime and illicit trade.

The report said that illicit trade is a problem that has high economic impact and is growing exponentially with time. Dr Sanjaya Baru, Secretary general, FICCI said, "Illegal trade in smuggled, counterfeited and pirated goods dampens the economy in multidimensional ways. It destabilises the legal industry, restrains innovation and investments, reduces government revenues and hampers the health and safety of consumers. Moreover, globally it fuels transnational crime, corruption, and terrorism. As it converges with other criminal activities it undermines the rule of law and the legitimate market economy, creating greater insecurity and instability around the world".

Praising Prime Minister Narendra Modi for his Make in India initiative, actor and senior BJP leader Shatrughan Sinha on Thursday said the move will help in curtailing the influx of counterfeit and smuggled products in India, which had given rise to the black economy.

He urged the stakeholders to take this agenda to the global platform and engage NRIs in the movement against illicit trade.

"It was high time and the right time for promotion, protection and projection of India's goods and to fight against smuggling, counterfeiting and illicit trade," Sinha said in his address at FICCI CASCADE event 'MASCRADE' (Movement Against Smuggling and Counterfeit Trade), adding that under the leadership of Modi and Make in India programme, this has been made possible.

According to Sinha, who is the MP from Patna Sahib, much more is needed to be done to change the general mindset with respect to the use of smuggled and illicit goods.

The Committee Against Smuggling and Counterfeiting Activities Destroying the Economy (CASCADE) said terrorist organisations are manufacturing counterfeit goods and smuggling them across borders to finance their crime operations.

"In India gold, tobacco and narcotic drugs accounts for the major smuggled goods. Also 4.2 to 5.4 million jobs to be lost globally by 2022 due to counterfeiting and piracy worldwide," it said.
